OFFICE OF LOUISIANA

Steam Sash, Blind and Door Factory,

NEW ORLEANS, January 1st, 1891.

DEAR SIR :

We herewith respectfully present you with our second edition of Illustrated Catalogue, of our Manufactures, containing a great variety of New and useful designs.

Every care has been taken to render it useful to the Architect, Builder, and all persons contemplating building.

We cordially thank our Customers for their patronage during a period of over forty years, and assure them, and all who in future may entrust us with their orders, that with our greatly improved facilities and extended experience, we hope to maintain the confidence which our steadily increasing trade proves us to have fairly earned.

We refer with pleasure to the many proofs of the appreciation of our enterprise in the past, and will spare no effort to maintain the present superior standard of our work; and the popularity of our Manufactory.

Soliciting a continuance of your patronage,

We remain yours, respectfully,

ROBERTS & CO.

PREFACE.

In presenting this, the second edition of our Illustrated Book of Mouldings and designs to our patrons—our object is to bring before them the latest and most approved styles, especially adapted to the Southern and Southwestern States. The close practical attention that we have paid to this branch of Manufacture, for a period of over forty years, and the increased facilities and improved machinery, etc., that we have introduced within the last few years, enable us now to supply work, that will compare favorably, in Quality, Design and Price, with any large City in the United States. We also offer to our Customers the additional advantage of having their orders Manufactured from the choicest CYPRESS lumber, which experience has proved to be the most suitable wood for this climate, as it is a well known and acknowledged fact, that WHITE PINE as used by the Northern and Northwestern Manufactories, is not durable in this part of the States, especially for work that is exposed to the weather. The immense amount of manufactured work we have furnished in this City, and throughout the Southern States, is evidence of the excellence, and durability of our work.

In reference to the Illustrated Book, we are now placing in the hands of the Trade, and those contemplating building, we desire to call attention to the fact, that it is not only the first extensive work of the kind that has been designed and published expressly for the Trade of the South and Southwest, but in its Designs and Application of modern Styles, is not excelled by any similar publication in this country, and is in itself, a convincing proof that NEW ORLEANS, the CRESCENT CITY OF THE SOUTH, has in reality taken her place amongst her competitors, as an enterprising manufacturing mart.

ROBERTS & CO. NEW ORLEANS.

The Science of ARCHITECTURE should be more generally studied and encouraged. If before building, a proper set of plans, specifications and bill of items, giving sizes, quantities and description of workmanship and materials were prepared; it would not only be a considerable saving in the cost, but would enable you to make intelligent and satisfactory contracts for the various branches of the work, and avoid the many alterations and changes, which is almost invariably the result of building without them; and which in the majority of cases lead to a dispute as to difference of cost. The additional advantage would also be found in having an artistic and suitably designed building; and also of avoiding the risk of adding to the many unsightly, ill proportioned, and badly arranged buildings, which are continually being erected, both in the City and Country, and finding that you have paid too dear for the experiment of building without plans, etc., only when too late for remedy.

Should any of our patrons desire Plans or Bill of Items, etc., they can have them made in NEW ORLEANS at reasonable rates, by sending us a description of the building they require—giving sizes of rooms, height of stories, etc., and desired cost. The Architect will then be able to prepare suitable plans.

We will cheerfully furnish Estimates and Price lists, or any information in our line on application.

In addition to the manufactured work illustrated in this book, we are prepared to furnish all kinds of DRESSED FLOORING, CEILING, WEATHER-BOARDING, LATHS, SHINGLES AND LUMBER, at lowest market rates.

We cordially invite a personal inspection of our Stock, and manufactory, by all who contemplate dealing with us.

Assuring our customers that the reputation for good workmanship that our establishment has enjoyed for so many years, shall stimulate us to maintain it in the future, with the assurance that any ORDERS entrusted to our care, shall be filled as promptly, and as faithfully executed, as heretofore.

NEW ORLEANS, JANUARY 1st, 1891.

ROBERTS & CO.

P. S.—WE INVITE SPECIAL CORRESPONDENCE WITH DEALERS, AND THOSE DESIRING WHOLESALE ORDERS.

DIRECTIONS IN SENDING ORDERS.

Note.—By attention to the following instructions, you will often avoid errors and unnecessary delays:

Orders for Door Frames.—Should state if for Frame or Brick Buildings, giving thickness of Wall or Studding, and if for Outside or Inside Doors, also if Sills are required, and whether Casings are to be made plain or moulded.

Orders for Window Frames.—Should state if for Frame or Brick Buildings, thickness of Wall or Studding, whether plain or moulded Casings, thickness of Sash and Blinds, and if Sash are to be plain, or hung with Weights.

Orders for Sash.—Should state the number of Lights, and Size of Glass in a Window, thickness of Sash, if plain or check rail, and if Glazed or Unglazed. For Segment Head Sash, give radius of Segment, otherwise the regular Mill radius, which is the width of the Sash, will be made. In ordering Circle or Segment Head Sash, **ALWAYS STATE** whether they are wanted to finish Circle, or Segment, inside and outside, same as designs Nos. 250 and 252 on page 98, or Circle, or Segment on glass line, and square on top, as designs Nos. 249 and 251 on same page; also where Frames are made, give height and width in clear, thickness, and if to be hung with Weights.

Orders for Outside Blinds.—Should state size of Glass, and number of Lights in a Window, thickness of Blinds, whether full rolling, half rolling or stationary slats, and if Segment head, give radius of Segment.

ROBERTS & CO. NEW ORLEANS.

Orders for Door Blinds.—Should give exact Height, Width and Thickness, whether Stationary or Rolling slats, and **ALWAYS STATE** if a panel, or slats, are required below the lock rail.

Orders for Inside Blinds.—Should state exact Height and Width required, number of Folds (width of box if any), and if panels, or slats. We make all inside Blinds $1\frac{1}{8}$ inches thick unless otherwise ordered.

Orders for Doors.—Should state Size and Thickness, number of Panels, if Plain O. G. Doors, or raised or sunk mouldings on one, or both sides, also if Raised or Flat Panels.

Orders for Sash Doors.—Should state Size and Thickness, number of lights, if Primed and Glazed, and if in PAIRS or SINGLE.

NOTE—Our stock sizes are all made $1\frac{1}{4}$ inches thick unless otherwise ordered.

Orders for Store Doors.—Should state Size and Thickness, number of Lights, if in Pairs or Single: also state, whether Shutters are required and if Primed and Glazed.

Orders for Mantels.—Should give Width of Breast including Thickness of Base on each side, also Width and Height of Brick opening, also state if to be used for Grate, or Open fire place, if for Grate, give Width and Height of grate.

Orders for Mouldings.—Should give number of DESIGN, and the PAGE of book.

In making selections from OUR BOOK OF DESIGNS, BE PARTICULAR in stating both the NUMBER OF FIGURE OR DESIGN, and PAGE OF BOOK.

ROBERTS & CO.

New Orleans, January 1, 1891.

ROBERTS & CO. NEW ORLEANS.

SASH

PRIMED AND GLAZED

) WITH (

American or Imported Glass,

) ALSO (

COLORED, STAINED, ENAMELLED and :: ::

:: :: PLATE GLASS FURNISHED TO ORDER.

SASH WEIGHTS, SASH CORDS

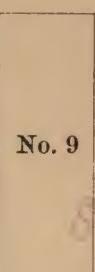

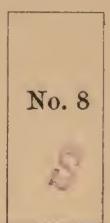

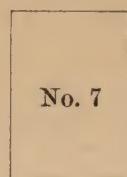

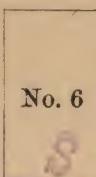

and BUILDERS' HARDWARE.

We would call the attention of Shippers to the fact that Glazed Sash can be carried with greater safety than the glass in boxes. By ordering Sash Primed and Glazed the extra allowance which is always made for breakage is avoided, each light is then separate, and in packing we cover the entire Sash with lumber which protects every light. The Sash and Glass being in one package, can be shipped at lower rates per 100 pounds, than the Sash unglazed. We keep a large Stock of Glass on hand, and having Glaziers constantly at work, we are enabled to fill orders promptly and at lowest rates.

We also advise that Blinds, Doors, Frames, etc., be painted one coat before being shipped, as it will preserve them from swelling if exposed to the Weather.

PLAIN AND FANCY
NEWEL POSTS.
—OF—
CYPRESS OR HARDWOOD.

STAIRS, STAIR RAILING —AND— BALUSTERS.

We invite special attention to our facilities for furnishing STAIRS, STAIR RAILING, NEWEL POSTS, BALUSTERS, ETC., which are now unsurpassed by any establishment in the Southern States.

To meet the increasing demand, especially in our COUNTRY TRADE for this class of goods, we have largely extended our facilities for manufacturing, and we now keep in Stock a large variety of STAIR WORK, also seasoned PINE, CYPRESS, OAK, ASH, WALNUT and MAHOGANY, specially adapted for this branch of our Trade, and are prepared to furnish PLAIN AND FANCY STAIR CASES of every description, promptly, at the lowest prices.

Our STAIRS, AND STAIR RAILING are fitted together, marked, and then taken apart, and written instructions given if necessary, so that any good carpenter can put them together and finish in the building.

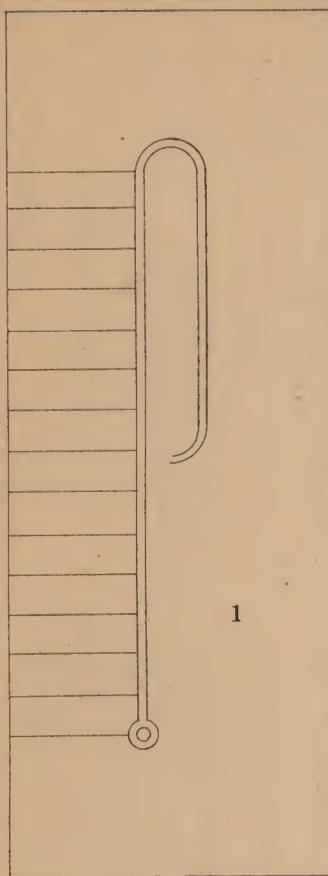

Orders for STAIRS should give width of hall, height of story from floor to floor width of joists in second story, width and run of Stairs, the size of cylinder, style of base used in halls, with a sketch showing about the shape of Stairs wanted, location for doors in hall, etc.

Orders for RAILING should enclose an exact plan of Stairs as built, showing the location of risers on cylinder, etc., and giving the width of rise and step as sawed out on string-board, the size and style of NEWEL POST AND BALUSTERS, and the number of feet of straight rail required at landing.

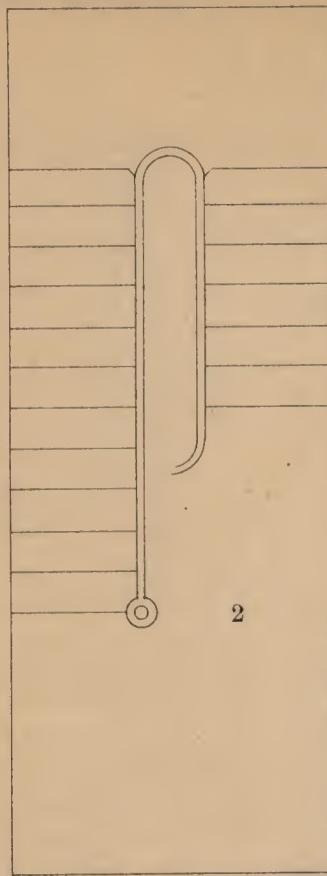

All our work securely packed for shipping. Estimates promptly furnished for STAIRS complete, or for RAILING, NEWELS AND BALUSTERS. We have a large stock of NEWEL POSTS, BALUSTERS, ETC., always on hand, which we will take pleasure in showing to our customers.

Respectfully,

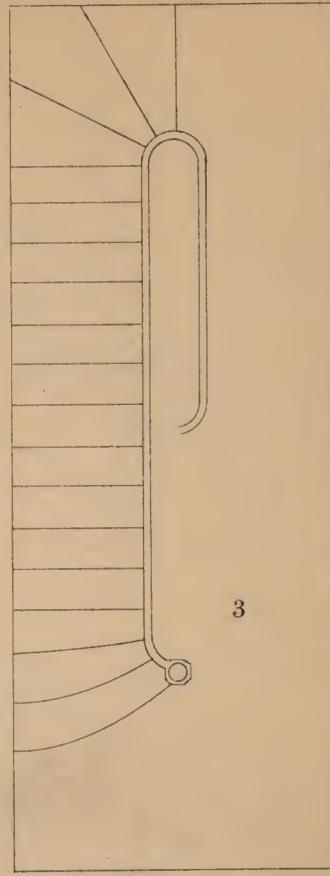

ROBERTS & CO.

PLANTATION CABINS.

The above represents a Double Cabin of two rooms, each 14 by 15 feet, 10 feet high, built with boards placed upright and the joints stripped, the doors and shutters are hung and fitted with locks, etc., and the windows fitted with glazed sash. This Cabin contains about 3000 feet of lumber and 3500 shingles. Delivered to Boat, including all Hardware, Nails, Shingles, etc., (except foundations and chimney.)

The following are the most common sizes, but we will get out any size required:

DOUBLE CABINS

2 Rooms, each 14x14, for.....	\$ 93 50
2 Rooms, each 14x15* for.....	97 50
2 Rooms, each 15x15, for.....	103 50
2 Rooms, each 15x16, for.....	112 50
2 Rooms, each 16x16, for.....	118 50
2 Rooms, each 16x18, for.....	132 50

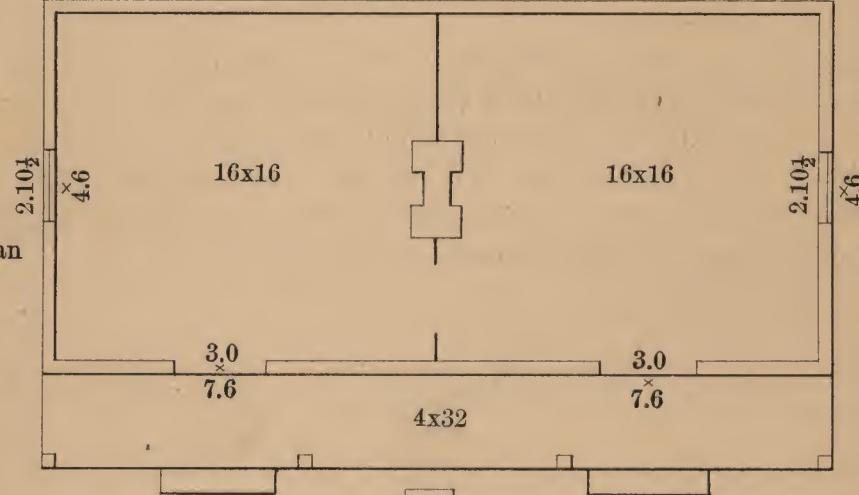

SINGLE CABINS

1 Room, 14x14, for.....	\$46 50
1 Room, 14x15, for.....	50 00
1 Room, 15x15, for.....	55 00
1 Room, 15x16, for.....	60 00
1 Room, 16x16, for.....	67 00
1 Room, 16x18, for.....	73 50

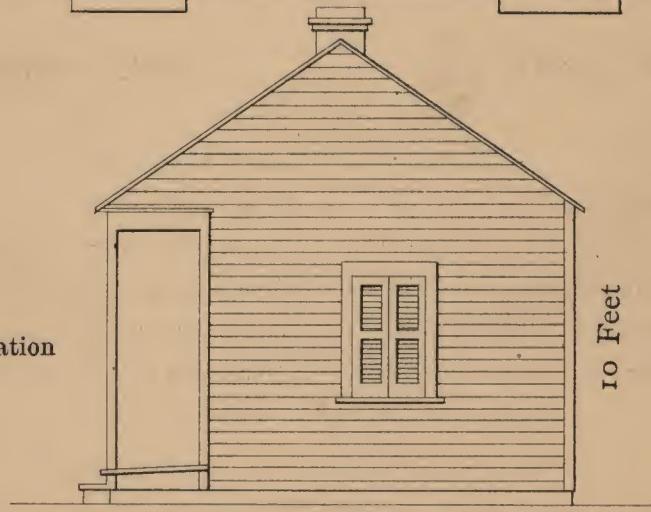

For Price of above Cabins, address, or call on us at our Factory, 299, 301, 303, 305 and 307 Gravier Street, or at our Branch Office, No. 52 Carondelet Street, New Orleans.

SPECIAL PRICES — SPECIAL PRICES —

To OUR PATRONS.

Upon the following pages will be found the cards of a number of our most prominent merchants in nearly every department of trade.

They have been selected by us for their responsibility, liberality and fair dealing in all transactions, and we cheerfully commend them to the patronage of our friends throughout the South.

Much of the trade that naturally, as well as justly, belongs to New Orleans, has been diverted to other marts through false representations, which we cannot at all times counteract; but a visit here, and a careful examination by purchasers, of the Goods and Manufactures offered by our larger dealers, cannot fail to satisfy the former that our merchants are not only thoroughly posted as to the wants of our people, but are prepared to sell their wares upon such terms as will compare favorably with those ruling in the markets of the largest cities on this Continent.

THE SHIMER MATCHING HEADS

HAVE BEEN AWARDED
A World-Wide Reputation!

By Actual Every Day Use.

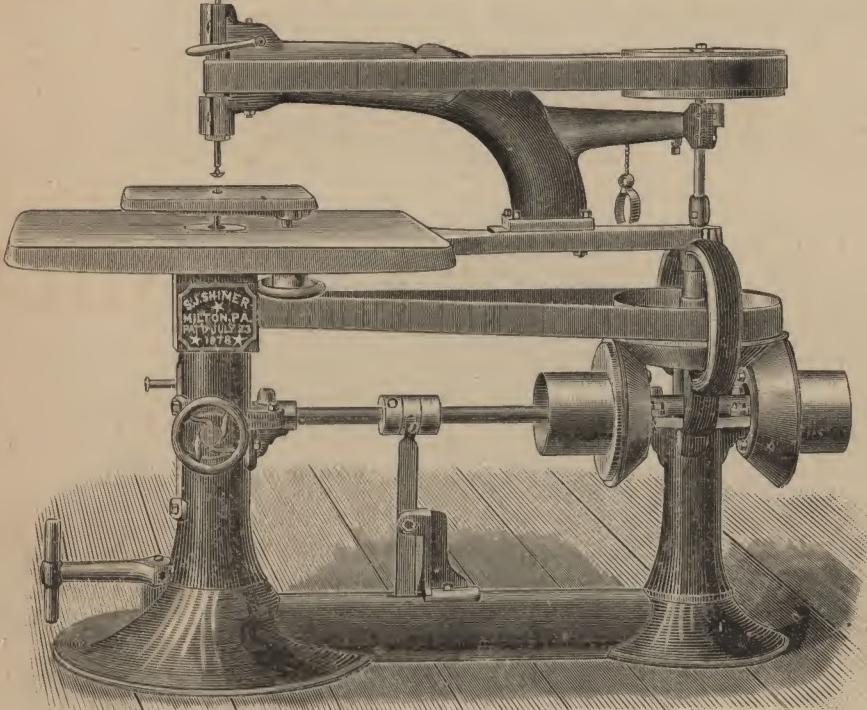

Our Standard Door Head

Our Standard Sash Head

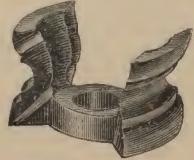

You find them in every Planing Mill—Our Sash and Door Heads have for many years become the "OLD RELIABLE" in every Planing Mill of the Northwest, working on regular stock—And to day we are hard run on orders from all over the country. These Tools are to the Door and Sash department, what the Matcher Heads are to the Flooring department.

Send for Descriptive Catalogue.

Shimer's Variety Moulder, With Surface Moulding Attachment.

The cut shows the machine as a Surface Moulder—to change—the arm is hinged and is thrown up out of the way. The small table is turned back, an operation that need not take a minute, and you have your Variety Moulder. For strength, durability and convenience it has no equal. SEND FOR DESCRIPTIVE CIRCULAR.
